

- Cut out the dogs and the bones
- Make a spinner\* (with a paper clip) on the shape page with the dog houses
- Spin, name the shape, and cover with a dog or a bone!
- Next try spinning or naming a shape and see if you can find all of those shapes and cover them.

\*if you are not able to make the spinner (or make it work), point to a shape, name it and cover it OR name a shape to find and cover.
