

Color the pieces, cut out
and glue together to put
an inchworm on an "I"
tree!

I is for inchworm

I is for igloo

Use the page included or
make your own winter scene on
construction paper. Include an
arch with a black "opening".
Cut small strips of paper into
squares and glue them on the
arch to make "ice cubes" to build
the igloo. Then use more "ice cubes"
to make the letter "I"!
